

Rubon®

THE WORLD'S BEST LIGHTING - MADE IN SWEDEN

AT RUBN, ONE
PURPOSE DRIVES US:

making
the world's
best lighting
– without
compromise

EVERY LAMP IS HANDCRAFTED
in our own factory in Vittsjö,
Southern Sweden.

Lamps have been made in our
factory since 1951. Since then,
millions of lamps have been
delivered worldwide.

Rubn is our family company, run
by the eldest son in the Hoflin
family, Fabian.

” **MY VISION** is for people to expect and appreciate only the highest quality in premium lighting. My job is to provide it.

We never compromise on quality, materials, or our climate.

A DREAM OF

the world's
best
lighting

Fabian Hoflin
Managing Director

THE

Rubn light experience

Our goal is giving the customer the joy of experiencing harmony between material, design, and functionality. We build lighting for grand interiors and

everyday living, for private and public spaces. We never compromise on quality, and we only make products we want ourselves in our homes and spaces.

THE HANDMADE PROCESS IN VITTSJÖ

In our factory in Vittsjö, Southern Sweden, every lamp is handmade, and the possibilities are endless. Since 1951 this factory has held the tradition of crafting lighting by hand. At Rubn we honor aesthetics, durability, fun-

ction and quality. Design shall be crafted to last. It has to persist time both in expression, processing and use of materials. To achieve that we go through perfected simplicity; both in the lines that are drawn and in our choice of materials.

WHAT DOES IT MEAN TO
BE SWEDISH? WE MAKE
LAMPS ACCORDING TO
WHAT WE BELIEVE, AND

**our lamps
are just as
Swedish
as us**

A modern dining table and bench set is shown against a textured, light blue wall. The table is made of dark wood with a black metal frame. A long, thin wooden bench is positioned in front of the table, featuring two dark, cylindrical cushions. On the table, a dark wooden tray holds several white, round objects, possibly bread or pastries. Above the table, a track lighting fixture with four adjustable spotlights is mounted on a horizontal bar. The scene is lit with warm, focused light from the track lights, creating a minimalist and contemporary atmosphere.

LONG JOHN

A WELL-DESERVED REPUTATION for going the distance, Long John has no peers. The leather and metal architecture combines with unmatched articulation and flexibility.

we can make it a reality.

Let us design a state of the art
piece for your space.

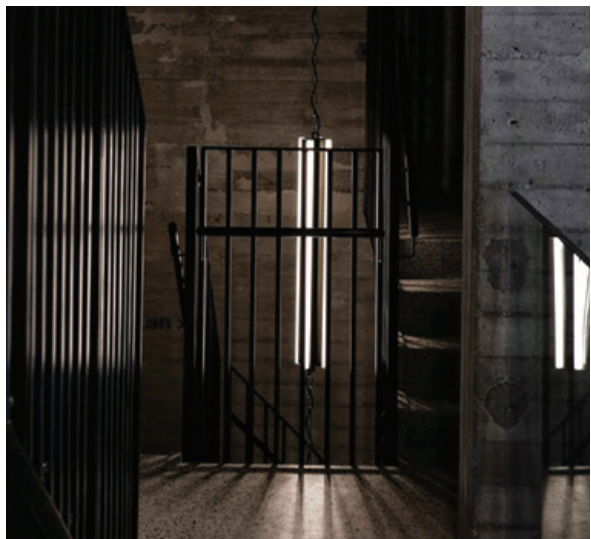

NICLAS HOFLIN

DESIGNER & FOUNDER OF RUBN

In 2009 Niclas acquired the former Luxus lighting factory, where lighting has been in production for over 70 years. Today his designs for Rubn are produced in the very same factory, with modern and sustainable methods.

Lighting has been fascinating to Niclas for as long as he can remember. It can create the feeling of intimacy, security, or kindness, just as easily as it can give you a sense of loneliness or discomfort.

**nothing is as
important as
lighting**

FOR SETTING THE TONE

The feeling of warmth from a fireplace or a candle can also be made cold by the blue light of a hospital room or an interrogation.

Out of all the elements in design and architecture, nothing is as important as lighting for setting the tone. Light shows you the way, and it decides what you get to see. Light will show you the people that you love, and the plates on your table.

This is why, many years ago, Niclas decided to pursue the light.

**light will
show you**

**THE PEOPLE THAT YOU
LOVE, AND THE PLATES ON
YOUR TABLE**

Rubn®

The spirit of Rubn is in every handmade piece, made without compromise from the finest materials, crafted in our Swedish factory. Discover the people behind the family business, the handmade production and a selection of our lighting.
